⋮ Introduction

At NGS, based in Bethlehem, PA, we take pride in being a leading dental medical instrument manufacturer, specializing in crafting top-quality dental instruments from AISI 420 Stainless Steel. Our commitment to excellence is evident through our ISO 9001:2008 and ISO 13485:2008 certifications, as well as our CE Marking, which signifies compliance with stringent European quality standards. Additionally, we are proud to hold FDA approval, reflecting our dedication to meeting the highest regulatory and safety standards.

Our dental instruments are the result of meticulous craftsmanship, utilizing cutting-edge technology, rigorous testing, and precision heat treatment to ensure the utmost quality and durability.

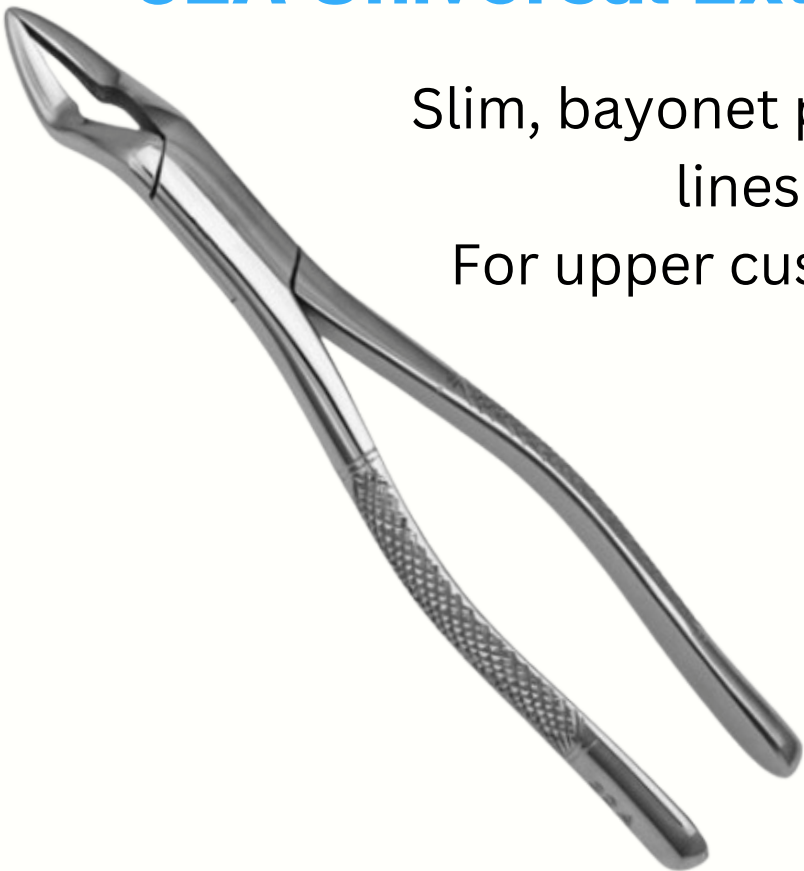

Extraction Forceps

32A Universal Extraction Forceps

Slim, bayonet pattern beaks with parallel lines for optimal grip.
For upper cuspids, bicuspid & molars

23 Cowhorn Extraction Forceps

Slightly larger cowhorn beak design than #16
For lower 1st & 2nd molars

150 Universal Extraction Forceps

Durable and sturdy, our extraction forceps are the perfect tool to remove teeth from the alveolar bone.

Variations
